

Security Policy

Last updated: January 09, 2025

At Austin Capitals, we take the security of our users' information and data seriously. This Security Policy outlines the measures and practices we have in place to ensure the security and protection of your information when you use our website.

Data Encryption

We implement industry-standard encryption protocols to protect data transmitted between your device and our servers. This helps ensure the confidentiality and integrity of the information you provide or access on our website.

Secure Account Access

Your account security is important to us. We use secure authentication methods to verify your identity when you log in or perform sensitive actions on our platform.

Regular Security Audits

We conduct regular security audits and assessments of our systems to identify and address potential vulnerabilities or threats. This ongoing evaluation helps us maintain a secure environment for our users.

Protection Against Unauthorized Access

We employ various security mechanisms to prevent unauthorized access to our systems. This includes firewalls, intrusion detection systems, and access controls to safeguard your data.

Third-party Security

When we engage with third-party services, we carefully assess their security practices to ensure they meet our standards and align with our commitment to safeguarding your data. Despite our best efforts, no online platform can guarantee absolute security.

We encourage you to take your own precautions, such as using strong and unique passwords, keeping your login credentials confidential, and updating your devices and software regularly. If you suspect any unauthorized activity or have security-related concerns, please contact our support team immediately at [hello@austincapitals.com].

We reserve the right to update and modify this Security Policy to reflect changes in our security practices and legal requirements. Please review this policy periodically to stay informed about how we are protecting your information.

By using Austin Capitals, you acknowledge that you have read, understood, and agree to the terms outlined in this Security Policy.
